

## We love options.

### Pre-hung

Pre-hung units are available on Poplar paint grade Jam or Vertical grain bamboo Jam.

### All doors

Sliders, pivot and bi-fold configurations, pocket doors, swing doors and dutch doors are all available.

### Hinges

We offer a standard hinge set up for machined units featuring Emtek oil rubbed bronze or satin nickel.

### Fire Doors

1-3/4" standard thickness with self-closing hinges and a 20, 45, 60 or 90 minute rating.

## We love bamboo.

- Bamboo is rapidly renewable and the fastest growing plant on the planet which does not need additional fertilizers, pesticides or irrigation.
- Bamboo forests reduce our carbon footprint by consuming harmful CO<sub>2</sub> molecules in the air.
- Bamboo harvesting does not result in soil erosion due to the presence of rhizome root systems that remain living throughout the harvest to renew once again as a young shoot.
- Moso bamboo, the giant timber bamboo used for construction, is famous for its strength and straightness and is not the variety of bamboo eaten by Panda bears.
- Bamboo is absolutely elegant.

## We are environmentally committed.

- We use water-based glues and contact cements that maintain healthy indoor air quality and carry the GreenGuard certification
- Low Emitting Particle boards and medium density NAUF fiberboards (No added Urea formaldehyde)
- Recycled content medium-density fiberboard that is certified by the Scientific Certification Systems
- Locally sourced "core" materials and FSC chain of custody material available upon request
- American-made manufacturing of the doors

Green Leaf doors are constructed of materials that have undergone third party independent certification to ensure that they are environmentally preferable products.

FSC CHAIN OF CUSTODY AVAILABLE UPON REQUEST

Printed on 100% recycled content, 50% post-consumer waste, processed chlorine-free paper, using soy inks.

# BAMBOO DOOR COLLECTION

Green Goods is proud to provide distinctive and elegant bamboo doors built with quality and intention. Bamboo doors are inherently green, exotic in nature and rich in design. Combining beauty with exceptional durability, our Green Leaf Bamboo Door Collection offers an architectural design element that is timeless and unique.

5 panel options  
available in all colors  
and grain pattern

A completely smooth door engineered from quality kiln-dried hardwoods and water resistant plywood. Bamboo grain can be in a single panel running vertically or in a number of panels running horizontally. Available as a solid core, with custom light kit options.

## Flush Panel

Optional features include  
Micor bevel and inlays in  
stainless steel or brass.

Bamboo Door Collection

## BAMBOO DOOR STYLES

VISIT [WWW.GREENLEAFDOORS.COM](http://WWW.GREENLEAFDOORS.COM) FOR OUR FULL COLLECTION

Unlimited panel options  
available in all colors  
and grain pattern

Add a distinct architectural element to the entry of any room. The inner panel is a modular system comprised of square moulding and floating panels that can be arranged in an unlimited array of options, reminiscent of Frank Lloyd Wright or an Asian design.

## Design Collection

Provide us with your  
own design or choose  
from our selection.

Designed to bring natural light and warmth into your home. An elegant style of French doors is amiable in many design options. The addition of art glass, recycled resin panels or etched glass can add an extra splash of color and texture.

7 panel options available in all colors and grain pattern

French

Send us your design ideas or contract Green Goods to design your custom door and add the final touch to your home. Custom width, height and thickness is available.

Custom Design Available

Straight and clean lines are the signature of this door style. Available in a variety of panel options – arch top, square top and continuous arch double doors. Additional “plant on” decorative edges provide an elegant detail to enrich your door.

10 panel options available in all colors and grain pattern
